Data set description		
OpenData Portal Berlin Statistics on road traffic accidents		
Column name	**Contents**	**Remark**
OBJECTID	Serial number of the accident	One data record per accident
LAND	State 11 = Berlin	LOR key system see: [Spatial references (statistik- berlin- brandenburg.de)](#)
BEZ	Districts	
LOR_from_2021	Lifeworld-orientated rooms (LOR) valid from 2021- Key	
STREET	Street name in data records until 2019	
YEAR	Accident year	
UMONAT	Accident month	
HOUR	Accident hour	
WEEKDAY	Weekday 1 = Sunday 2 = Monday 3 = Tuesday 4 = Wednesday 5 = Thursday 6 = Friday 7 = Saturday	
UKATEGORY	Accident category 1 = Accident with fatalities 2 = Accident with serious injuries 3 = Accident with minor injuries	The criterion for allocation is the most serious consequence of the accident in each case
UART	Type of accident 1 = Collision with starting/stopping/stationary vehicle 2 = Collision with vehicle in front/waiting vehicle 3 = Collision with a vehicle travelling sideways in the same direction 4 = Collision with oncoming vehicle 5 = Collision with turning/crossing vehicle 6 = Collision between vehicle and pedestrian 7 = collision with road obstacle 8 = Moving off the carriageway to the right 9 = left lane departure 0 = other type of accident	
UTYP1	Accident type 1 = Driving accident 2 = Turning accident 3 = Turning / crossing accident 4 = overshoot-accident 5 = Accident due to stationary traffic 6 = Accident in longitudinal traffic 7 = other accident	
ULICHTVERH	Lighting conditions: 0 = Daylight 1 = Twilight 2 = Darkness	

IsWheel	Accident with bike 0 = Accident without bicycle involvement 1 = Accident involving a bicycle	Accident involving at least one bicycle
ActualPKW	Accident with car 0 = Accident without car involvement 1 = Accident involving a car	Accident involving at least one passenger car was involved
IsFoot	Accident with pedestrian 0 = Accident without pedestrian involvement 1 = Accident involving a pedestrian	Accident involving at least a pedestrian was involved
Actual bike	Accident with motorbike 0 = Accident without motorbike involvement 1 = Accident involving a motorbike	Accident involving at least one motorbike, e.g. moped, motorbike/scooter was involved
IsGkfz	Accident with goods road transport vehicle (GKFZ) 0 = Accident without goods road transport vehicle involvement 1 = Accident involving a goods road transport vehicle	Accident involving at least one lorry with a standard body and a gross vehicle weight of more than 3.5 t, one lorry with a tank top or one lorry with a tank top. Special body, a tractor unit or another tractor unit was involved
IsOther	Accident with others 0 = Accident not involving a means of transport not mentioned above 1 = Accident involving a means of transport not mentioned above	Accident in which at least one means of transport not mentioned above was involved, such as a bus or coach. a tram
STATUS	Road condition: 0 = dry 1 = wet/damp/slippery 2 = winter smooth	
LINREFX LINREFY	Graphic coordinate 1 and graphic coordinate 2 LINREFX and LINREFY form the coordinate of the accident location on the road section	UTM coordinate of the ETRS89 reference system, zone 32N
XGCSWGS84 YGCSWGS84	Graphic coordinate 1 and graphic coordinate 2 XGCSWGS84 and YGCSWGS84 form the coordinate of the accident location on the road section	Coordinate of the reference system GK 3

Data basis: Berlin-Brandenburg Statistical Office
